The Project

This project brings together significant Social Enterprise finance expertise which will ensure the successful delivery of its objectives including the development of suitable social finance instruments and investment-readiness supports.

We are asking you to participate in a survey so we can better understand the challenges you have faced in relation to accessing finance in the past, your attitude to potential sources of finance and your suggestions for the future of financing Social Enterprise in Ireland.

This is a unique opportunity for you to help us design and deliver tailor-made finance solutions for Social Enterprise across Ireland which will help unlock the full impact potential of your organisations.

We would be extremely grateful if you can also encourage other Social Enterprises to participate in the survey.
